OBJECTIVE

WORK EXPERIENCE

SOFTWARE ENGINEER

June 2020 - Present

VinTech City, Hanoi

Main responsibilities:

- Developed and maintained scalable applications for a fintech platform, resulting in a 30% increase in processing speed and a 25% reduction in downtimes.
- Led a team of 5 developers in a project that redesigned the architecture of a legacy system using microservices, improving system resilience and scalability.
- Implemented continuous integration and continuous deployment (CI/CD) pipelines using Jenkins and Docker, enhancing the development process and reducing the release cycle time by 40%.
- Consult all the tech teams in the company in specific projects

JUNIOR SOFTWARE DEVELOPER

January 2018 - May 2020

FPT Software, Ho Chi Minh City

Main responsibilities:

- Assisted in the development of a cross-platform mobile application using React Native, which achieved over 100,000 downloads within six months of launch.
- Participated in the full software development lifecycle (SDLC) for three major client projects, focusing on coding, testing, and deployment.
- Contributed to the improvement of code quality by adopting Agile practices and conducting regular code reviews with senior developers.

INTERN

June 2017 - December 2017

VietSoftware International, Hanoi

Main responsibilities:

- Supported the development of an internal CRM tool that led to a 20% increase in productivity for the sales team by automating data entry tasks.
- Gained proficiency in multiple programming languages, including Java, Python, and SQL, through hands-on experience and mentorship from experienced developers.
- Collaborated with a team to implement a new feature set for an e-commerce client, which improved user engagement by 15%.

EDUCATION

SOFTWARE ENGINEERING

Oct 2012 - May 2014

Hanoi University of Science and Technology (HUST)
